

Wenham Housing Authority

Deferred Maintenance Policy

If during routine annual inspections or any other inspection of property or report to the authority, routine work items are identified but the work items are not detrimental to the health and safety of the residents, the work item may be considered “deferred”. Examples of such deferred work items may include but not be limited to:

Replacement of countertop

Replacement of worn flooring

Shower/tub liners

WHA may choose to defer work items due to budget constraints or man power limitations.

Only the Maintenance Supervisor or the Executive Director can determine if a Maintenance work item may be deferred. If the determination is made to defer a work item, a work order is generated for that item and the item is marked “deferred”. No work item will be deferred if the work is determined necessary for decent, safe and sanitary housing standards.

Deferred maintenance item reports will be reviewed by the Maintenance Supervisor and the Executive Director on a quarterly basis.

The deferred maintenance items will be reviewed prior to capital improvement planning and prior to submission of the budget on an annual basis to determine if the work items need to be grouped and considered for larger modernization projects. Deferred Maintenance work items will be kept in an “open” classification until the work is completed.
